Programmer with broad experience and in the Node, React, and DevOps worlds. Maintainer of widely-used tools and libraries, contributor to many open source projects.

Skillset

- Various CI/CD Platforms, AWS, Docker, Kubernetes
- TypeScript/JavaScript, React, Node, HTML, CSS
- Linux, Bash, Git, Postgres, OTel, various O11Y tools

Experience

Qualiti Senior Software Engineer · 2023-Present

Developed tracing and telemetry integrations for analysis by in-house AI. Led DevEx initatives including CI and testing improvements. Assisted with switch from GOFAI to LLM-driven E2E test generation and execution.

Freelance Developer and mentor · 2020-2023

Freelance and consulting work in Node, React, Python, Kubernetes, Docker, and cloud platforms, including: migrating home-spun CI from Python and shell scripts to GitHub Actions, moving a platform from GCP to AWS, updating long-neglected Node services, and mentoring junior engineers.

LiLiHi Cofounder · 2019-2020

Implemented Kubernetes infrastructure on GCP with Terraform, prototype web application with Next.js, and microservices with Node and Python.

Jane.com Senior DevOps Engineer · 2020

Migrated services to AWS EKS, worked on migration to Hashicorp Vault from in-house solution, open-sourced internal libraries, participated in cross-discipline interviews, designed Node microservice architecture, trained teams on Git workflows and observability, templatized projects and pipelines, migrated all platforms to Datadog, introduced automated canary deployments.

Infrastructure Engineer · 2018-2019

Revamped CI/CD, introduced APM telemetry with NewRelic, spearheaded feature flag implementation, introduced policies around change management, led initial containerization effort.

Software Engineer · 2016-2018

Worked on React rewrites of three web apps with a focus on performance and developer experience. Built Node microservices and internal libraries.

DevMountain Mentor and Junior Developer · 2016

Mentored students, refactored and added features to internal applications, developed curriculum.

Freelance Web Developer · 2015

Designed and developed Bootstrap-based sites.
